Multi-app delivery driver: one car, every app

Write every app the driver used this year at the top, then tick each line once per app where it applies. Miles and car lines are filled once for the car, not per app.

Client or engagement

Forms and earnings, one set per app

- [ ] Every 1099 any app sent: NEC, K or INT
  One line per app; see that app's page for where it is posted
- [ ] Full-year earnings history from every app
  Even apps used briefly, and apps that sent no form
- [ ] Tip total from every app
  Tip emails, summaries or earnings tabs
- [ ] Bank and payout card statements
  All accounts that received app deposits
- [ ] Form W-2 for any employee delivery job
  Restaurant or courier firm, plus mileage pay statements

One mileage log and the car

- [ ] Single mileage log across all apps
  Overlapping miles counted once; 2026 split at July 1
- [ ] Odometer readings at the start and end of the year
  And the date the car was first used for deliveries
- [ ] Purchase contract for a car bought this year
  Date, price and business use share
- [ ] Car loan year-end statement
  Interest paid
- [ ] Gas, oil, tire, repair, insurance and registration receipts
  Needed for actual costs
- [ ] Bike or scooter receipts and repair bills
  For couriers who do not deliver by car

Delivery costs

- [ ] Parking and toll receipts or toll account statement
  Paid on deliveries only
- [ ] Hot bags, pizza bags, phone mount, chargers
  Receipts or card statements

- [ ] Phone and data bills with the share used for apps
  Yearly total
- [ ] Background check, activation and inspection fees
  Receipts

Payments and prior year

- [ ] Estimated tax payment confirmations
  Federal and state, with dates
- [ ] Form 1095-A, if insured through the marketplace
  For the health insurance deduction
- [ ] Last year’s return
  Car depreciation history and carryovers
